The following storage fees are payable:

- a) for the storage of goods and items upon public storage areas

each ton and calendar month	0.19	EUR
or per each m ² and calendar month	0.22	EUR
minimum fee applicable for the overall storage	31.50	EUR.

The respective rate shall apply, which results in the higher storage fee.

- b) for the storage of goods and items in the water

each m ² and calendar month	0.22	EUR
minimum	31.50	EUR.

- c) Should the storage good not be removed within two months, then a surcharge of 100% is levied upon the billing periods thereafter.

- (2) Storage is only permitted with Niedersachsen Ports' approval and must be applied for with them, before storage commences. Niedersachsen Ports will assign the storage location and may, in justified instances, order the relocation of the stored goods to another storage location. Goods stored without permission, or goods that are not relocated or removed after a request to do so, or after expiration of the agreed storage period, may be removed from the port at the peril and expense of the owner. Up until the relocation or the removal of the goods, an increased storage fee of up to the ten-fold amount of the regular storage fee may be charged. If the duration of storage cannot be substantiated, it will be determined at Niedersachsen Ports' reasonable discretion.

In case the Storing User is unknown, he will be obligated to reimburse Niedersachsen Ports for the actually incurred expenses for his determination. A Storing User, within the meaning of this clause, is any individual or legal entity that has a contractual relationship with us for the usage of our ports or facilities for storage, or that uses our ports or facilities in any other fashion for storage.

A person using our ports in any other fashion for storage is someone that (in his or her capacity as legal entity or as an individual) has either effectively stored the goods and/or has ordered the storage. The Storing User is also the owner of the stored goods. The storing entity, the contracting entity (principal), and the owner are jointly and severally liable for the costs of storage, storage relocation, removal, and for the increased storage fee.
